

Lightweight Indoor Compact ABS Fiber Optic Terminal Box

NetSource Lightweight Indoor Compact ABS Fiber Optic Terminal Boxes designed to function as a termination point within residential homes, offices, or apartments. These terminal boxes facilitating the connection between the feeder cable and the drop cable in FTTX applications. Combining fiber splicing, flexible connections, and storage into a single unit, these terminal boxes enable cables to be easily crossed and connected in various configurations.

The terminal box features a user-friendly design, with a sliding lid that can smoothly move upwards or downwards. This innovative feature offers convenient access for adds, moves, or changes to the fiber optic connections. When the lid is slid downwards, it provides effective protection to the installed fiber, shielding it from any potential accidental impacts.

PN: HE-SFMNT-01

Features
