

# Fiber Terminal Swing Arm Mount

The new innovative **NetSource Fiber Terminal Swing Arm** makes mounting MSTs in hand holes more convenient for routine maintenance and cuts down installation time and cost.

With the MSTs being mounted to the Swing Arm, it prevents the MST from being placed on the ground. With the MST resting above the ground, it reduces the amount of water, dirt, and debris that could affect the MST, resulting in insertion loss or total loss.

## Features and Benefits

- Rigorously tested for harsh environments
- Customizable mounting bracket will accommodate up to 47"
- Arm pivots 90° degrees and can lock in place
- Corrosion resistant
