

OptiTip® Corning Compatible

OptiTip® cable assemblies are designed for use in Outside Plant applications. The connectors have a hardened shell housing that encapsulates the MT ferrule providing a water tight sealed assembly. The OptiTip® cable is the premier plug and play solution for Outside Plant applications.

NetSource offers OptiTip® Trunks/Pigtails and Harnesses in a range of cable styles. OptiTip® harness assemblies are available pinned(male) and non- pinned (female) to a variety of connectors including MTP®/LC/SC/ODC®/OptiTap®/Full AXS and ODVA style. These assemblies are compatible with both Corning's OptiTip® and CommScope's HFMO connector.

They are custom built to customer specification including length, breakout, and cable types.
