

**NETSOURCE**  
Copper and Fiber Systems Solutions

Who We Are and What We Do

## At Our Core

- **Collaboration:** At NetSource, we understand that some projects require a high level of customization and attention to detail. Our team works closely with you on the precise details of the cables, harnesses, enclosures, or other products to guarantee it fits your project requirements perfectly.
- **Commitment:** Our team strives to provide customers with excellent customer service to ensure that your overall experience is a positive one. We take pride in delivering high-quality products alongside exceptional customer support, ensuring a seamless experience from start to finish.
- **Integrity:** We uphold honesty, transparency, and ethical conduct in all our interactions and operations.
- **Quality:** We are committed to maintaining the highest standards of manufacturing excellence, ensuring reliability and performance in every product.
- **Service:** We prioritize customer satisfaction through accurate deliveries and rapid response times, ensuring we meet and exceed our customers' expectations consistently.

## Markets Served

### • Broadband

We provide a comprehensive passive solution for FTTH (Fiber to the Home) installations, encompassing both indoor and outdoor environments. Our offerings span all phases, from the central office to residential homes and multi-dwelling units, ensuring seamless connectivity across diverse settings. We also offer BABA-compliant products to meet industry standards and regulations.

### • Network Infrastructure

Our comprehensive in-building network infrastructure solutions encompass both fiber and copper cabling and connectivity, tailored for data centers, colocation facilities, and commercial office spaces. We provide an extensive array of passive connectivity options, physical infrastructure, and cable management systems.

### • Wireless

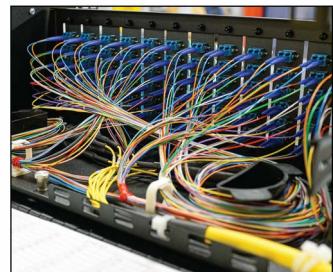

We support various telecom equipment providers, catering to both macro and micro cell applications, as well as in-building scenarios, with our customized fiber and copper cable assemblies. Our assemblies are designed to meet the specific needs of Nokia, Samsung, Ericsson, and other manufacturers, ensuring seamless integration and optimal performance in telecom environments.

## • OEM Capabilities

We offer contract manufacturing across all markets we serve. Our advanced manufacturing facilities and stringent quality control processes ensure consistent delivery of high-quality products, such as OptiTip® harnesses, NID enclosures, and pre-wired rack enclosures. We work closely with clients to understand their needs, offering private labeling and producing products to meet their specifications with low minimum order quantities.

From conceptualization to delivery, every aspect of our process is tailored to your preferences, including manufacturing, testing, packaging, labeling, and shipping. Our ability to scale production to meet varying demands makes us a reliable partner. We take pride in being a leading OEM for top wireless providers and Fortune 100 companies, delivering high-quality solutions that drive their success.

## Our History

Founded in 1993, NetSource began in a 2,500 square foot building and has since expanded to three locations totaling 83,000 square feet. As a privately held company with over 200 employees, we have grown into a leading provider specializing in manufacturing copper and fiber cable assemblies and connectivity solutions for Broadband, Wireless, and Network Enterprise markets. Our versatile product line addresses the needs of Utility/Municipality, Data Center, FTTH, FTTA, and Telco markets.

Our core values are centered around customer service, quality, and a commitment to excellence.

NetSource is ISO 9001:2015 registered, highlighting our adherence to rigorous quality management standards. We are also proud members of the Corning Gold Program, further validating our dedication to excellence in manufacturing fiber cable assemblies and connectivity solutions.

NetSource continues to lead by focusing on customer needs and delivering high-quality solutions built to their specific requirements. As a domestic manufacturer, we ensure the highest quality standards, providing unmatched confidence in our products.

***Our Commitment To Quality And Customer Service Is Our Connection To You!***
