

NetSource NID Enclosure

Product Overview:

The NetSource NID Enclosure is a compact, custom-designed solution built to support reliable fiber optic connections in outdoor environments. Manufactured from a rugged ABS+PC blend, this enclosure accommodates a range of cable types and configurations while maintaining a lightweight and efficient footprint. It's engineered to house up to four subscribers, with integrated fiber management features and multiple mounting and cable entry options, making it an ideal choice for network deployments requiring durability, flexibility, and ease of access.

Features & Benefits:

- Supports up to 4 SC/APC connectors
- Accepts 1x2, 1x4 splitter, or up to 6 fiber splices
- Compatible with ROC, flat drop, and round cables (up to 7mm)
- Built-in fiber storage ring with a 50-foot capacity
- Back pass-through entry with grommet for clean cable management
- Integrated cable holders, grounding, and duct compatibility contribute to clean, code-compliant setups

Environmental & Mechanical Properties:

- Operating Temperature: -40°C to 65°C (-40°F to 149°F)
- UV Resistance: Yes
- Ingress Protection: IP66
