

# Point of Entry Enclosure

## Product Overview:

The Point of Entry (POE) enclosure is a compact, reliable solution for managing fiber connections at the customer entry point. Designed for single fiber terminations, this enclosure keeps connections organized and protected while providing easy access for future service or upgrades. Its low-profile footprint makes it a practical choice for residential and small business applications.

## Features & Benefits:

- Small footprint makes it easy to install in limited or concealed areas
- Pre-installed SC/APC adapter for faster setup
- Integrated fiber routing to protect bend radius
- Indoor or outdoor wall-mountable

## Environmental & Mechanical Properties:

- Material: Durable, UV-resistant plastic
- Operating Temperature: -40°F to 140°F (-40°C to 60°C)
- Protection Rating: IP55, resistant to dust and water
- Flammability: UL 94V-0 rated
